It is quite thrilling to defy the laws of science and be pulled in the opposite direction. The scientific theory states that there is a strong magnetic force emanating from the hills that defies gravity at this particular spot. It is a good pitstop on the highway and serves as a break in between mundane road travel. Do note that it is best to visit between May to September, when the road is easily accessible. There is a board that marks the location of magnetic hill, so it cannot be missed while driving down the highway. Local Ladakhi superstition believes that the road is a straight stairway to heaven.
